

# SECTION 1, PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** TPR<sup>2</sup> Fireshell Ultra F1E, F1EP, ICP, F1ES

**Effective Date:** May 22, 2015

**Product Use/Class:** Fire Retardant Coating

**Manufacturer:** TPR<sup>2</sup> Corporation **Preparer:** Chemistry Department, TPR<sup>2</sup> Corporation

36 Plains Road Essex, CT 06426 USA 1-860-767-8772

In Case of Emergency: CHEMTREC Supersedes: New

1-800-424-9300

# **SECTION 2, HAZARDS IDENTIFICATION**

**GHS Classification:** 

Hazard Class Hazard Category Route of Exposure

Acute Toxicity – Inhalation4InhalationEye Irritation2BEyeSkin Irritation2Skin

Signal word: Warning

# **Symbol(s):**

### **Hazard Statements:**

Harmful if inhaled

Causes eye irritation Causes skin irritation

# **Precautionary Statements:**

Avoid breathing mist/spray Wear eye protection Avoid contact with exposed skin Wear protective gloves Wash thoroughly after handling

### Response:

If inhaled: Remove person to fresh air

If in eyes: Rinse with water for several minutes If eye irritation persists: Get medical attention

If on skin: Wash with soap and water

If skin irritation persists: Get medical attention

## Storage:

Store material in cool dry place

## Disposal:

Page 1 of 5 TPR<sup>2</sup> Corporation

Complies with OSHA Hazard Communication Standard 29 CFR 1910.1200 and prepared to GHS

Dispose of contents and container in accordance with local/regional/national regulations

### Section 3, Composition / Information on Ingredients

Chemical Name	CAS Number	Wt. %
Aluminum Trihydrate	21645-51-2	20-50
Titanium Dioxide	13463-67-7	1-10
Expandable Flake Graphite	12777-87-6	5-10

### Section 4, First Aid Measures

**General** – If irritation or other symptoms occur or persist from any route of exposure, remove the affected individual from the area: get medical attention

**First Aid – Skin Contact:** Wash with soap and water. Remove contaminated clothing. If persistent irritation occurs, seek medical attention.

First Aid – Eye Contact: Flush eyes for at least 15 minutes. Seek medical attention if irritation persists.

**First Aid – Ingestion:** If swallowed: Do not induce vomiting. Rinse mouth out with water. If irritation persists: seek medical attention.

## **Section 5, Fire Fighting Measures**

Extinguishing Media: Use ABC dry chemical, foam or carbon dioxide.

**Unusual Fire & Explosion Hazards:** Closed container may rupture (due to a buildup of pressure) when exposed to extreme heat. Carbon monoxide and/or carbon dioxide may be released when exposed to very high temperatures.

**Special Protective Equipment and Precautions for Fire-Fighters:** Wear positive pressure self-contained NIOSH approved breathing equipment and approved protective equipment if necessary.

## Section 6, Accidental Release Measures

**Personal precautions, Protective Equipment, and Emergency Response:** Use personal protective equipment as recommended in section 8.

**Environmental Precautions:** Do not allow material to be released into waterways.

Methods and materials for containment and cleaning up: If spilled, absorb with vermiculate or other inert material (i.e. sand). Collect up and place in an appropriate container.

# Section 7, Handling and Storage

**Precautions for safe handling:** When working with any chemical product, use good workplace procedures. Do not cut, puncture, or weld on or near the container. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Use under well ventilated conditions. Avoid skin and eye contact. Avoid inhalation of mist, spray, fume or vapor. Avoid drinking, tasting, swallowing or ingesting this product. Wash contaminated clothing before reuse.

**Conditions for safe storage:** Keep away from heat, sparks and open flames. Avoid extreme heat or cold. Store above freezing. Do not store in open, unlabeled or mislabeled containers. Keep containers closed when not in use. Empty container contains residual product which may exhibit hazards of product. Do not reuse empty containers.

## **Section 8, Exposure Controls / Personal Protection**

Chemical Name	CAS Number	OSHA PEL	ACGIH TLV	NIOSH
Aluminum Trihydrate	21645-51-2	15 mg/m <sup>3</sup> TWA	10 mg/m <sup>3</sup> TWA	N/A
		(total dust)	(total dust)	
		$5 \text{ mg/m}^3$	$3 \text{ mg/m}^3$	
		(respirable dust)	(respirable dust)	
Titanium Dioxide	13463-67-7	15 mg/m <sup>3</sup> TWA	10 mg/m <sup>3</sup> TWA	$5000 \text{ mg/m}^3 \text{ IDLH}$
Expandable Flake	12777-87-6	N/A	None Listed use	N/A
Graphite			$2.0 \text{ mg/m}^3 \text{ TWA}$	
			3 mg/m <sup>3</sup> nuisance	
			dust	

**Engineering Controls:** Use mechanical ventilation (cross, dilution and local exhaust) to control exposure. Local exhaust as required by job conditions to keep TLV below acceptable limits. Refer to OSHA Regulations 29 CFR 1910.94

Respiration Protection: A dust mask should be used in cases where individual are exposed to airborne mists of the material.

**Skin Protection:** Wear cloth, rubber, or latex gloves. Use long sleeve work cloth or a polypropylene suit.

Eye Protection: Wear proper eye protection; at minimum, safety glasses with side shields.

Grey Lquid

## Section 9, Physical and Chemical Properties

Appearance:

Odor: mild odor pH: 6-7 **Melting Point:** N/A **Boiling Point:** >212°F Flash Point: >200°F **Evaporation Rate:** >1 (water=1) Flammability: N/A **Lower Exposure Limit:** N/A **Upper Exposure Limit:** N/A Vapor Pressure (mm Hg): N/A Relative Density (kg/mm<sup>3</sup>): N/A **Solubility in Water:** N/A 1.25 + / - 0.1Specific Gravity (H2O=1): **Physical State:** Grey Liquid % Volatiles: 30-40% 1500-3000 CPS Viscosity: **Auto Ignition Temperature:** N/A

## Section 10, Stability and Reactivity

Chemical Stability: Stable (normal temperature and conditions)

Possibility of Hazardous Reactions: None

Conditions to Avoid: Avoid high temperatures or freezing. Avoid strong acid, bases and oxidizing agents.

Incompatibility: Strong acid, bases and oxidizing agents.

Page 3 of 5 TPR<sup>2</sup> Corporation

Complies with OSHA Hazard Communication Standard 29 CFR 1910.1200 and prepared to GHS

Hazardous Decomposition Products: Thermal decomposition may produce smoke, carbon monoxide, carbon dioxide, sulfuric

vapor and oxides of titanium, and other products of incomplete combustion.

Hazardous Polymerization: None

# Section 11, Toxicological Information

Information on likely exposure:

General: Use personal protective equipment to minimize exposure.

Eyes: May cause eye irritation.

Skin: Causes skin irritation.

Inhalation: Protect from high airborne concentrations of mist resulting from spray. May cause irritation of the respiratory tract and mucous membranes.

Ingestions: May cause irritation.

Carcinogenicity	IARC			NTP		OSHA

Acute Toxicity:

No toxicity studies have been conducted on this product.

Titanium Dixoide:

Aluminum Trihydrate:

LD50 Oral Rat >5,000 mg/kg

Expandable Flake Graphite Not Available

Chronic effects: For this category no toxicological test data is available for the whole product. Carcinogenicity: For this category no toxicological test data is available for the whole product. Mutagenicity: For this category no toxicological test data is available for the whole product. Teratogenicity: For this category no toxicological test data is available for the whole product. Developmental effects: For this category no toxicological test data is available for the whole product. Fertility effects: For this category no toxicological test data is available for the whole product.

Fertility effects: For this category no toxicological test data is available for the whole product. Target Organs: For this category no toxicological test data is available for the whole product.

## Section 12, Ecological Information

Ecological Information: No ecological testing has been conducted on this product.

Ecotoxicity:

Persistence and degradability: N/E
